

sx-H-01 Installation Instructions

Hardware and parts list

NO.	Item	Photo	Qty
1	Upper Handle		1
2	Lower Pole		1
3	Bracket		2
4	Big Screw		16
5	Small Screw		2
6	Beauty Cap		16

Installation Steps

1, Connect the Upper Handle and Lower Pole together ,make sure the hole of the upper handle and lower pole at one point, then tighten with a small screw .

2, Loosen the screws behind the two brackets (It's better to screw it off) ,than connect the whole handle from the bottom of the lower pole with the brackets , then tighten the screws behind the bracket .(The position of the brackets can be adjusted by yourself)Make sure the position of the two brackets is vertical .

3, Install the handrail on the tub and fix it with the big screws (16pcs),then use the beauty cap to cover it.
